Blue Safari Submarine is offering you the opportunity to live a unique, thrilling and memorable experience : diving with the BS 1100 Submarine (10 seats plus pilot) at 35 metres depth. A wonderful experience to share with your family!

During this 40-minutes dive, you will view the coral reefs, the fantastic Star Hope wreck, a 17th-Century sheet anchor, and, all through the way, myriads of colourful fish like the surgeonfish, capitaine or kingfish.

The BS 1100 is framed and equipped like the archetype legendary submarine, with individual windows viewing out on the underwater world. Inside the cabin, you can watch, live, on a television screen, the impressive immersion of the submarine filmed by a camera from the deck. You will enjoy the fascinating movement of the pneumatic valves activating the ballasts.

It's an experience no one should miss, be it at 2 or 90 years old!

10 MINUTES BRIEFING

After a 10 minutes briefing, you will be able to pilot your own submarine, under the supervision of two accompanying diving guides.

EASY AS A B C

The submarine is easy to pilot, with a steering wheel and two accelerator pedals. It has a maximum speed of 4km/hr. Moreover, you only have to press a button to dive or to surface.

SAFETY & SECURITY

The air inside the cabin is permanently regenerated due to an air cylinder with an autonomy of 50 minutes for two people. In case of emergency, a backup system can take over. The cabin is also equipped with an alarm button which can be activated anytime to draw the attention of the accompanying diving guides. The building plans and the modus operandi of the subscooter have been approved by a renowned International Classification Society (IRS).

JUST BREATHE NORMALLY

Comfortably seated, one behind the other, on height-adjustable seats, you can breathe normally inside the big transparent dome and enjoy the panoramic view. No regulator is required. What a great pleasure then, to share, throughout the trip, your comments and views on the marine flora and fauna!

GENTLE IMMERSION

Down to 3 meters, the immersion is gentle and gradual. This is because the subscooter stands on a hydraulic platform. Such equipment and accessories, especially the torpedoes used by the divers guides, make it all look like a James Bond movie!

YOU DROVE A MINI SUBMARINE - WOOHOO.

Back on the platform, you will have the opportunity to freshen up and wash off the salt in the changing room provided with showers. Complimentary refreshments will be served before you resume the exploration of the island.
